Dear Mr. Snow,

Although I support CALFED's proposed restoration goals for the Central Valley, I thoroughly oppose the means suggested.

I oppose the plan to increase surface water storage in the Central Valley by

~~raising~~ building new offstream storage reservoirs or by raising existing dams.

There are other means to accomplish these goals such as expanding water efficiency, conservation, and reclamation

programs. Specifically CALFED's plan to raise Shasta dam would flood ~~parts~~

of the upper Sacramento & McLeod rivers.

I would appreciate a ~~fast~~ response.

Thank you,

Meredith Wernick
